

ELK MEADOWS FUELS REDUCTION GRIZZLY RIDGE

MAP #2

Proposed Action

1. Construct approx. 1.25 miles of temporary road.
2. Close, obliterate, and sign 1.25 miles of temporary road when complete.
3. Remove trees highly susceptible to insect attacks.
4. Reduce over-all fuel loading through traditional harvest methods.
5. Slash would be chipped/shredded, piled and burned, or removed from site.
6. Promote the regeneration of aspen stands.

Grizzly Ridge: 220 Acres
Temp. Rd. Approximately 1.25 mi
